Simulated Emergency Exercise for JOTA-JOTI

Information item 5.

'A twitter message'

Hello world, from Jonas. I was in a big earthquake today but I am okay myself. My home is destroyed and it is very cold here. I found a friend who has some food. All roads are blocked and people say there is danger of another earthquake. I hope that I will survive that one also and that help comes soon. For now I stay outside on the mountain.
